5. Purpose and legal basis for the processing of personal data	<p>The event and stakeholder register of Finland-China Food and Health network is established and maintained by the University of Turku is considered to serve the public interest (YoL 2§) and legitimate interest of Data Controller. The legal basis for the processing of personal data is set by an agreement that is formed between the Data Controller and the data subject through the registration and on the Data Controller's legitimate interest.</p> <p>The Stakeholder Register is used for the network's external and internal electronic newsletters, and for matchmaking among the stakeholders by the competence they offer and need. The newsletters are used in informing about the network's events and research results. Being in the register and receiving messages/invitations does not oblige to participation but enables it. The processing of personal data is based on the Data Controller's legitimate interest.</p> <p><u>Event register:</u> The purpose of the event-specific register is to store the contact information of persons who have registered to a FCFH network events and data related to the registration. The data collected from the data subject will be utilized in implementing the agreement that has formed through registration, especially in</p>

	<p>communication related to the event and networking after the event as well as directing individual services to the registered persons.</p> <p>The collected personal data is processed to enforce the cooperation, matchmaking and communication between the registry and the persons in the register. In addition, the register information can be used for <u>event invitations, newsletter distribution, contact dealings, reporting, and other information sharing and enabling collaboration after the event</u>. Depending on the agreement that has formed through registration the information may also be used in network's website.</p>
<p>6. Personal data groups in this privacy notice</p>	<p>Personal data is collected from persons who register to an event or inform themselves that they wish to receive or submit information (such as e-mails and newsletters) of or for the network. The collected data may vary between different events and activities The personal data can be for example contact information: name, e-mail, university, organization, position or researcher's presentations containing personal data e.g. research topics and what the researchers themselves choose to present during e.g. electronic event. The distribution of the material presented during the event will not be published or distributed without the permission of the stakeholder or researcher.</p>
<p>7. Recipients and recipient groups of personal data</p>	<ul style="list-style-type: none"> <li>• Webropol Oy (Webropol is the system supplier for the University's Query and Event Management System. Event-related data is stored in Webropol). Newsletters system supplier is Emaileri.</li> <li>• Registered data can be disclosed to stakeholder (for example the organisers or instructors of the programme related to the FCFH event).</li> </ul>
<p>8. Information on transferring data to third countries EU General Data Protection articles</p>	<p>Due to the nature of the cooperation, the data is in some occasions transferred to third countries, in this context to the People's Republic of China or third possible co-operational partner accordingly. For example, it is considered that data is transferred automatically over internet during digital events without the Data Controller to be able to prohibit it. Also the</p>

	<p>network works for information distribution, networking and matchmaking purposes so the data can be transferred unless the stakeholder has not denied the right for that. Only the necessary information and necessary amount of information will transferred for a specific purpose. Basis for the transfer: The data subject has explicitly consented to the proposed transfer. Please see part 14.</p>
9. Retention period of personal data	<p>Personal data and other registration data related to the event is stored in the register for a maximum of 5 years after the end of the event or training.</p> <p>Personal data can be stored longer than 5 years if there is a legislative or other obligation originating from outside the University (for example, terms stated by the funder of training) which requires a longer retention period for personal data.</p>
10. Rights of the data subject	<p>The data subject has the right to access their personal data retained by the Data Controller, the right to rectification or erasure of data, and the right to restrict or object the processing of data, and the right to transfer the data from one controller to another.</p> <p>The data subject has the right to make a complaint with the supervisory authority.</p> <p>The contact person in matters regarding the rights and obligations of the data subject is the Data Protection Officer, whose contact information is listed at the beginning of the privacy notice.</p>
11. Is there an obligation to provide personal data that is based on legislation or an agreement, or required in order to form an agreement, and does the data subject have to provide personal information, and are there any consequences for not providing said data	<p>If the data subject does not provide required data regarding the registration to the event, the data controller cannot accept the registration of the data subject or commit to the agreement between the data controller and the data subject regarding the registration to the event.</p>

The EU General Data Protection Regulation  
articles 13 and 14

12. Information on the source of personal data	Registered data is acquired from the data subject through their registration to the event, giving information to information sharing e.g. e-mail or newsletter receivers lists.
13. Information on the existence of automatic decision-making, including profiling	Registered data will not be used for automatic decision-making or profiling.
14. Principles of protection of the register	<p>The register data is stored according to the best practices, good information security and legislative regulations so that it is protected from external parties. Regarding the transfer of personal data in context of network events and networking inside the network to the People’s Republic of China or third possible co-operational partner, the level of protection provided by the GDPR cannot necessarily be guaranteed by the Data Controller.</p> <p>An agreement on the terms regarding the processing of personal data, which is in accordance with the EU Data Protection Regulation, has been made with the system supplier (Webropol Oy).</p> <p>The use of the service creates log entries which are used for ensuring the information security of the service, developing the technology of the service, and for detecting, preventing or investigating technical faults or errors (Sections 138,141,144, and 272 of the Information Society Code (917/2014). The logs are retained for these purposes for the required time period and they will not be used for any other purposes.</p>
